

# Shaik Rahuman

Full Stack Developer | 3+ years of experience  
shaikdev76@gmail.com | +918124927107 | Tanjore, Tamil Nadu

## EDUCATION

### MIET ENGINEERING COLLEGE

B.E - EEE

Jun 2016 | Jun 2020

### SI (BMS) HR SEC SCHOOL

Jun 2004 | Apr 2016

## LINKS

Github:// [shaikdev](#)

LinkedIn:// [shaikrahuman](#)

## SKILLS

### PROGRAMMING

Advanced:

JavaScript • TypeScript • React • Node

React Native • MongoDB • Prisma •

React Query • Socket • HTML • CSS

Intermediate:

NextJs • Go • Tailwind CSS • Linked List •

Circular Queue • Queues • Hash Table •

Binary Search

Familiar:

React • Node • MongoDB

## INTERESTS

### TECHNICAL

Block Chain • Internet of Things

### NON-TECHNICAL

Sports • Volunteering

## OTHER PROJECTS

### GROSHOP SERVER [Link]

Go | MongoDB

Developed a basic Go project focusing on REST API development and concurrency handling, enhancing skills in goroutines and efficient coding practices.

### GROSHOP APP [Link]

REACT NATIVE | REDUX

Developed a cross-platform eCommerce app using React Native, implementing user authentication, product browsing, shopping cart, and payment integration. Optimized for iOS and Android to ensure a seamless user experience and performance.

## EXPERIENCE

### BROWN BUTTON PRIVATE LIMITED | FULL STACK DEVELOPER

Apr 2022 - Present | Chennai

### HIGGLERSLAB SOLUTIONS PRIVATE LIMITED | FULL STACK DEVELOPER

Aug 2021 - Mar 2022 | Tanjore

## PROFESSIONAL PROJECTS

### HARD DISK MANAGEMENT [Live Link]

REACT | TAILWINDCSS | REDUX | NODEJS | MONGODB | STRIPE

- Developed a Hard Disk Management system to track hard disks, onboard clients, and monitor employee usage with a centralized dashboard.
- Integrated QR code generation for real-time HDD data visibility and optimized system performance to enable faster access.

### PLEAT [Live Link]

REACT | REACT NATIVE | REDUX | NODEJS | MONGODB | RAZORPAY

- Implemented a streamlined order management system with secure authentication, optimized processing, and an engaging coupon module to enhance user experience.
- Led full-stack development, integrating Dunzo and Porter for efficient deliveries and optimized frontend/backend performance for a scalable, user-centric application.

### LINKHEALTH CARE [Live Link]

REACT | REACT NATIVE | REDUX | NODEJS | PRISMA

- Built staff scheduling, care plan task management, and a comprehensive scheduling system to streamline workflows and minimize conflicts.
- enhanced system performance by improving data handling and reducing communication delays, integrating third-party tools and webhooks for real-time updates.

### FULLFILY [Live Link]

REACT | REACT NATIVE | REDUX | NODEJS | MONGODB

- Built an admin panel for efficient management and a driver app for order pickup and delivery using Node.js, MongoDB, React, and React Native.
- Enabled real-time tracking and live updates, improving delivery coordination and significantly boosting overall application performance.

### ASKHUGO [Live Link]

REACT | NODEJS | REDUX | MONGODB

- Streamlined interview scheduling and job posting workflows, enabling better coordination and supporting real-time updates for seamless operations.
- Implemented drag-and-drop functionality to enhance user interaction, improving efficiency and delivering a more intuitive experience.
